

Co-Location For All Your ICT Business Needs

VITAL

Reflecting business through the internet

JVATIV

CO-LOCATION FOR ALL YOUR ICT BUSINESS NEEDS

The Vital Data Centre offers a wide range of co-location variants to suit all businesses, whatever type and size. At Vital, we provide suites and cages and racks, all maintained, managed and monitored to the highest standards, leaving you free to focus on your own equipment and applications.

Here are just 10 reasons why it pays to trust Vital with all your Co-Location requirements:

SECURITY:

- Assurance that company IT assets are safeguarded by unbeatable physical and technical security measures

UPTIME:

- 99.99% uptime typically achievable where diverse architectures are deployed throughout the entire ICT architecture

COST:

- Scaled economy reduces monthly outlay to the minimum for achieving maximum uptime of power, cooling, connectivity, security and on-site expertise

TIME:

- Deployment of ICT equipment by on-site technical expertise, physical and network infrastructure and key vendor relationships

EFFICIENCY:

- Out sourcing of necessary skills and services to maintain key systems provides greater efficiency than traditional in-house sourcing

COMPLIANCE:

- Rapid PCI, ISO 27001 and ISO 9001 compliance achieved when hosting ICT infrastructure within a co-location facility

RESILIENCE:

- Optimal reliability ensured with all systems managed, monitored and maintained to the strictest ISO-accredited processes

CONNECTIVITY:

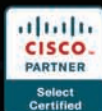

- Presence of all mainstream network operators within the facilities guarantee the most cost-effective and broadest choice of network services

DISASTER RECOVERY:

- Disaster Recovery strategy centred around key business ICT systems located primarily, or in standby capacity, within a colo facility

EXPERTISE:

- A broad portfolio of industry expertise with 10-year experience in large-scale ICT deployments, upgrades, migrations and colo success stories
